CONTACT

Over a decade delivering event photography within club and electronic music environments.

Trusted by one of Spain's most respected electronic music clubs, Mondo Disko, as resident photographer, covering artists such as Patrick Mason, Kettama, Marlon Hoffstadt, Daria Kolosova, Yousuke Yukimatsu, and Interplanetary Criminal, among others.

I work with promoters, clubs, and DJs to create visuals that elevate perception and extend the life of their nights beyond the dance floor.

Now based in Zurich and looking forward to working with clubs, promoters, and artists across Switzerland.
